COEUR STEEL

Standard steel hanger designed for interior uses or non-permanent installations. It is available for 10 or 12 mm diameter bolts.

Short Description Standard steel hanger for interior uses or non-permanent installations (pack of 20)

- Selling Points
- Economical choice for low-corrosion environments
 - Easy to clip:
 - the wide, ergonomic connection point facilitates carabiner clipping
 - the width of the attachment point allows installation of two carabiners at the same time
 - Reduces wear on connectors: the thickness of the hanger and the rounded edges of the connection point minimize wear on connectors
 - Hanger anti-rotation system: textured back keeps the hanger from turning when the anchor is being installed or when it is heavily laterally loaded during use
 - Available for 10 or 12 mm bolts

Note: Items sold in packs are not marked for individual resale.
